EXPERIENCE

Founder & Portfolio CEO BUILD.FUN.FREE · Building a portfolio of products with AI-powered agent teams. • Shaping a portfolio around product strategy, AI leverage, and founder-led execution. • Turning live work into essays, prompts, and operating principles that compound.	2025 — Present
Product Leader Jscrambler · Product vision, strategy and discovery. Shape Up method. • Balanced customer context, roadmap tradeoffs, and execution detail across cross-functional teams. • Translated technical constraints into product decisions users could actually feel.	Dec 2023 — May 2024
Senior Product Manager knok · Product discovery & delivery. Upload times +50%, scheduling +20%. • Worked across operations, product delivery, and user needs where reliability mattered. • Built comfort navigating ambiguity, stakeholder friction, and iterative product discovery.	Sep 2021 — Sep 2023
Product Owner Critical TechWorks · Data pipelines to AWS. Migrated 10TB+. • Operated close to engineering and learned where structure helps, and where it slows good work down. • Strengthened the habit of turning messy inputs into concrete next steps.	Feb 2021 — Sep 2021
Product Manager Sonae MC · Analytical P&L model. +20% sales margin, -15% stock cost. • Built fluency in planning, operations, and commercial reality before moving deeper into product. • Carried that operator lens forward into every later role.	Sep 2017 — Aug 2020
